

# SAVE OUR CRAIGHOUSE

We the undersigned oppose the developers' proposals to place New Build housing across the orchard, woodland and other protected areas of the site. We want the green space and woodland of this historic landscape, prominently sited on one of Edinburgh's 7 hills, to be preserved and remain freely accessible to the local community and the people of Edinburgh.

***“Craighouse is significant as the site of Old Craig, for the buildings of the Royal Edinburgh Asylum and its associated social history...but perhaps most of all for its presence in views within Edinburgh and its accessibility to the people of the locality”-from City of Edinburgh Council Survey of Gardens and Landscape 2007***

We the undersigned oppose the developers' proposals to place New Build housing across the orchard, woodland and other protected areas of the site. We want the green space and woodland of this historic landscape, prominently sited on one of Edinburgh's 7 hills, to be preserved and remain freely accessible to the local community and the people of Edinburgh.
